

LiftIQ AI — Product Menu & Pricing

Confidential | July 2026

PRODUCT OVERVIEW

LiftIQ AI is a subscription software product. There is no physical product. The "menu" is the set of features and plans available to customers.

PLANS

Free — \$0/month

No credit card required. Free forever.

Designed as an acquisition and trial tier. Free users experience the core tracking loop but hit limits that make upgrading obvious.

Feature	Free
Dashboard & training hub	'
Workout sessions per month	3 sessions
Exercise library	50 exercises
Session history & logs	'
Strength progress charts	'
AI training plan generation	—
Unlimited workout logging	—
Full exercise library (500+)	—
DEXA scan uploading & AI parsing	—
AI check-in & readiness coaching	—
AI 7-day nutrition protocol	—
Arsenal AI recommendations	—
Unlimited plan regeneration	—

Pro — \$12.99/month

7-day free trial. Cancel anytime.

The full product — every feature, no limits.

Pro Annual — ~\$108/year (\$9.00/month effective)

Save 30% vs monthly. Billed once per year.

Same as Pro monthly — all features, no limits. Annual billing upfront.

- Effective monthly rate: \$9.00/month
- Annual charge: \$108.00/year
- Savings vs monthly: \$47.88/year

FEATURE DETAILS

AI Training Plan Generation

The AI builds a personalised training program based on:

- Goal: Muscle gain, fat loss, strength, or endurance
- Experience level: Beginner, intermediate, or advanced
- Days per week: 2–6 days
- Program type: Push/Pull/Legs, Full Body, or Upper/Lower (AI selects the best fit)

Output: A complete week-by-week program with exercises, sets, reps, and target weights. Includes coach notes explaining the programming rationale. Regenerate at any time.

Workout Logging

Log every set as you go — weight, reps, and completion. The app:

- Tracks session duration
- Detects and flags personal records (PRs) automatically
- Calculates estimated 1RM using the Epley formula
- Generates a session summary card (shareable)

Free users: 3 sessions/month cap. Pro users: unlimited.

Exercise Library

A searchable database of exercises across all muscle groups and equipment types: barbell, dumbbell, cable, machine, bodyweight.

- Free: 50 exercises (major compounds)
 - Pro: 500+ exercises including all isolation and machine movements
-

DEXA Scan Parsing (Pro)

Upload a DEXA scan PDF. The AI reads it and extracts:

- Body fat percentage
- Lean mass (lbs/kg)
- Visceral fat level (rating)

Results are saved to your body composition history and plotted over time on the Progress page. Supports scans from DexaFit, BodySpec, and most clinical formats.

AI Check-in Coaching (Pro)

A structured weekly coaching session. You log:

- Current body weight
- Energy level this week (1–5)
- Mood and motivation (1–5)
- How well you stuck to your plan (1–5)
- Any notes

The AI reads your recent session history, compares it to your plan, and writes a personalised response: what's going well, what to watch, and one specific coaching cue for the week ahead.

AI Nutrition Protocol (Pro)

Tell the AI:

- Nutrition goal: bulk (surplus), cut (deficit), or maintain
- Dietary restrictions: omnivore, vegetarian, vegan, gluten-free, dairy-free
- Target daily calories (or let it calculate)

Output: A full 7-day meal plan with per-meal breakdowns and daily macro targets (protein, carbs, fat, calories). Regenerate at any time for variety.

Arsenal AI Recommendations (Pro)

The AI reviews your training history and current plan and surfaces exercise and equipment recommendations — specifically movements you should add, progress on, or rotate in based on your goal and weak points.

BILLING & PAYMENTS

- Payment processor: Stripe (PCI-compliant)
- Accepted payments: All major credit/debit cards, Apple Pay, Google Pay
- Free trial: 7 days for all Pro plans. No credit card required at trial start.
- Cancellation: Cancel anytime via the in-app billing portal. Access continues to end of current period.
- Refunds: Contact support within 7 days of first charge for a full refund.
- Annual billing: Charged in full at the start of each annual period.

PRICING RATIONALE

Comparison	Cost
LiftIQ AI Pro	\$12.99/month
In-person personal trainer	\$60–\$200/session
Caliber (AI + human coach)	\$150+/month
Fitbod	\$12.99/month (exercise selection only)
Strong	\$9.99/month (no AI)

LiftIQ AI delivers more AI-powered coaching than any direct competitor at the same price point, and does so at 1/10th the cost of a human trainer.

FUTURE PRICING (PLANNED)

Offering	Status	Estimated Price
LiftIQ Teams (gym / coach licences)	Planned Q1 2027	\$49–99/month per coach seat
DEXA scan clinic white-label	Planned Q2 2027	Custom / revenue share
Corporate wellness packages	Planned 2027	Custom
