16	1,188	\$13,662	\$163,944
17	1,333	\$15,330	\$183,954
18	1,490	\$17,135	\$205,620

KEY MILESTONES

Milestone	Projected Month
First paying subscriber	Month 1
Break-even (solo operating costs)	Month 4 (~150 subscribers)
\$1,000 MRR	Month 5
\$5,000 MRR	Month 10
500 Pro subscribers	Month 10
\$10,000 MRR	Month 13
1,000 Pro subscribers	Month 15
\$15,000 MRR	Month 15
\$200,000 ARR run rate	Month 18

REVENUE BY YEAR

Year 1 (Months 1–12)

- Cumulative new Pro subscribers: 689
- Total MRR at end of year: \$7,924
- Estimated Year 1 total revenue: ~\$38,500
- *(Sum of monthly MRR across 12 months + annual plan upfront payments)*

Year 2 (Months 13–24, extrapolated)

- Projected subscriber count at Month 24: ~2,200
- Projected MRR at Month 24: ~\$25,300
- Estimated Year 2 total revenue: ~\$210,000

Year 3 (stretch target)

- Projected subscriber count: 5,000+
- Projected ARR: ~\$690,000
- Assumes: B2B / gym partnerships contributing 15–20% of revenue

COST STRUCTURE

Variable Costs (scale with users)

Cost	Rate	Per 1,000 Pro Users/Month
OpenAI API (plan gen, check-in, diet, DEXA)	~\$1.00/user/month	\$1,000
Stripe processing fees	~2.9% + \$0.30/txn	~\$375
Hosting / infrastructure	~\$0.05/user/month	\$50
Total variable		~\$1,425

Fixed Costs (monthly estimates)

Cost	Monthly
Hosting (Replit / servers)	\$50–100
Domain & SSL	\$5
Email service (onboarding flows)	\$30–80
Analytics & monitoring	\$20–50
Total fixed	~\$105–235

Gross Margin at Scale

At 1,000 Pro subscribers:

- MRR: ~\$11,500
- Variable costs: ~\$1,425

- Fixed costs: ~\$170
- Gross profit: ~\$9,905
- Gross margin: ~86%

SCENARIO ANALYSIS

Conservative (50% of base case)

Slower organic growth, lower conversion

Month 12	Month 18
345 Pro subscribers	745 Pro subscribers
\$3,967 MRR	\$8,568 MRR

Base Case (forecast above)

Month 12	Month 18
689 Pro subscribers	1,490 Pro subscribers
\$7,924 MRR	\$17,135 MRR

Optimistic (1 viral moment or major creator partnership)

One creator or Product Hunt launch drives a spike

Month 12	Month 18
1,200 Pro subscribers	2,800 Pro subscribers
\$13,800 MRR	\$32,200 MRR

BREAK-EVEN ANALYSIS

Monthly fixed cost of operating solo (no salary): ~\$200–300/month

Break-even: ~27 Pro subscribers at \$11.50 ARPU covers all fixed costs.

At the current growth trajectory, break-even is reached in Month 2–3.

If paying yourself a modest salary of \$4,000/month:

Break-even: ~\$4,200/month total costs !' ~365 subscribers !' projected Month 7.
